© Patricia Garcia Pereira

GRIZANDRA - *Diploxys catholica*
Eudicotiledonea/Brassicaceae

© João Guilherme

Repare nas flores em forma de cruz características das crucíferas (família Brassicaceae).

Please note the cross shaped flowers, characteristic of the Brassicaceae family.

BRANCA-DE-MANCHAS-VERDES | Western Dappled White - *Euchloe crameri*
Insecta/Lepidoptera/Pieridae

© Albino Soares

Muitas borboletas brancas alimentam-se de crucíferas.

Many white butterflies feed on cruciferous plants.

FINAL DA PRIMAVERA: FLORES VERMELHAS E ROXAS E BORBOLETAS AMARELAS | End of Spring: Red and purple flowers and yellow butterflies

PAPOILA | Poppy - *Papaver rhoeas*
Eudicotiledonea/Papaveraceae

© Paulo Rocha Monteiro

CHUPA-MEL | Purple viper's bugloss - *Echium plantagineum*
Eudicotiledonea/Boraginaceae

© Bruno Pinho

CLEÓPATRA | Cleopatra - *Gonepteryx cleopatra*
Insecta/Lepidoptera/Pieridae

© Bruno Pinho

Procure a Cleópatra a alimentar-se do néctar do chupa-mel.

Look for the Cleopatra butterfly feeding on the nectar of purple viper's bugloss.
